

Meeting 3 - 13-2-26

Minutes

1) The Firs Way Poster

Mr Campbell showed us the posters he has laminated that are going to go up around the school and in classes.

2) Encouraging healthy eating and exercise:

- Last time we talked about how it is important because it helps us to live healthily now and as we grow up. We want to focus on playtimes right now and the School Council can help to spread the message and someone said you can try to limit how much sugar you eat
- Poster competition - We talked about what we had agreed at the last meeting in November which was that a poster around the school would help to persuade children to have a healthy snack at playtime
- We have charts on the walls with information about healthy snacks but a Y3 SC member said that people aren't listening and if we did a poster it could persuade them
- The posters need to be colourful and 'eye catching' it was suggested
- We talked about needing time to talk to classes about this and so it would be good to start this competition at the beginning of the summer term

3) Behaviour at The Firs

We talked about what we thought about behaviour at The Firs:

- Good bits are like people do get on and people help each other
- Things at playtime should stay at playtime we all agreed so we are happy in our lessons
- People need to share the pirate ship better
- It is so nice when people are able to help each other.
- People don't always stop to help though and we want to remind children in class council meeting that this is part of The Firs Way
- Some times not all learning partners join in and help their partner - we said this could be talked about at Class Council meetings

The Firs Lower School
School Council 2025-2026

- People go to the toilet when they don't need to and we talked about why this was bad as you might miss something important in the lesson
- People are learning to share although sometimes it doesn't quite go right
- One member of the council shared that they fell off the playground equipment and one of the Y4 playground friends helped them
- Another member shared that one of their friends was running away from him and the Y4 playground friends helped them all to play together by talking to them
- A third member said 'I wasn't able to play with my friends because they would not include me and the Firs friends helped me'
