**Letter to Y3 parents/carers: re having met the definition of a Covid outbreak**

Dear Parent/Carer,

We have been notified that a number of children in Y3 have tested positive for coronavirus (COVID-19) in our school. Your child has been identified as someone who is likely to have had contact with these individuals as part of a class or group.

The purpose of this letter is to inform you of the current situation, and to advise you on what to do next. We are monitoring the situation closely and are working with our local Public Health team to put temporary, additional measures in place to help to reduce the risk of onward transmission within our setting.

The Public Health team has advised that, as a precaution, **all children in Y3 should book a Polymerase Chain Reaction (PCR) test as soon as possible.** Your child can continue to attend school whilst waiting for their result **unless they develop symptoms of COVID-19.**

Please also consider the following precautions:

- Limit close contact with people outside your household, especially in enclosed spaces;
- wear a face covering (where age appropriate) in enclosed spaces and where they are unable to maintain social distancing;
- limit/avoid contact with anyone who is clinically, extremely vulnerable

**Please see the enclosed, updated local Parent/Carer Flowchart for further information on:**

Adam J.G Campbell (Headteacher)

The Firs Lower School • Station Road, Ampthill, Bedford MK45 2QR

Telephone: (01525) 402735

- What to do if your child develops symptoms of COVID-19, or tests positive for COVID-19
- Instructions for people who live in the same household as someone who has tested positive for COVID-19, or who is symptomatic and is waiting for a PCR test result
- Information on self-isolation

### **Additional advice for children when somebody else in their home has tested positive for COVID-19:**

The [Department for Education Contingency Framework](#) describes the principles of managing local outbreaks of COVID-19 in education and childcare settings. Local authorities and directors of public health can recommend measures described in the contingency framework for individual education and childcare settings, if the number of positive cases increases substantially.

- **As part of the response to COVID-19 cases in education settings the local Public Health team are recommending 7-days of daily testing with Lateral Flow Device (LFD) tests for students in Year 3 and above when somebody else in their home has tested positive.** (from the date of the first COVID-19 symptoms in the household, or from the date of the first positive test if there were no symptoms.)
- **Public Health are also encouraging families with younger children (i.e. in Year 2 and below) to follow this advice if they feel able to do so.** Transmission in household settings is very common, even when people are vaccinated.
- **Household contacts of a positive case who are in Year 3 and above are also strongly encouraged to take a **daily LFD test before school or college for 7 days** and attend only if their lateral flow test is negative.**
- **Families with younger children (i.e. in Year 2 and below) are also advised to follow this advice if they feel able to do so.**
- People who have tested positive with a PCR test within the last 90 days **do not** need to participate in daily LFD testing or be re-tested with PCR.

See link below for details of how and where to get LFD tests:

[https://www.centralbedfordshire.gov.uk/info/135/coronavirus/919/rapid\\_tests](https://www.centralbedfordshire.gov.uk/info/135/coronavirus/919/rapid_tests)

The following measures will also help to reduce the risk of you, and anyone you live with, becoming ill with COVID-19:

- Get vaccinated – **young people aged 12 and over can have their COVID-19 vaccination** through their school, at a local catch-up clinic, or by booking an appointment at a large vaccination centre. More information about the vaccination programme is available from <https://www.blmkccg.nhs.uk/covid-19/covid-19-vaccine-information/> Book an appointment at one of the large vaccination centres by visiting <https://www.nhs.uk/covid-vaccination> or by calling 119.
- Wash your hands with soap and water or use hand sanitiser regularly throughout the day.
- Cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze.
- Put used tissues in the bin immediately and wash your hands afterwards.
- Meet people outside and avoid crowded areas.
- Open doors and windows to let in fresh air if meeting people inside.
- Wear a face covering when it's hard to stay away from other people – particularly indoors or in crowded places.
- Participate in twice weekly LFD testing following national guidelines (recommended for Years 7 and above). We encourage you to log your results here: <https://www.gov.uk/log-test-site-covid19-results>

Further information is available at: <https://www.nhs.uk/conditions/coronavirus-covid-19/>

Yours sincerely,

Adam J.G. Campbell  
Headteacher
