

Meeting 1 - 27/11/25

Minutes

1) Badges!

- Our badges have arrived and we got them today! We all got them pinned on... thank you to Mrs A'Court for coming to help with this!

2) The Firs' Way Poster

- Mr Campbell showed us the poster with all the ideas from the School Council last year
- We said the Firs' Way was important because it shows you how to behave and it keeps it in your mind and it helps people who aren't being kind to remember to be kind. It helps us to have more friends too because people want to play with children who are kind to them.
- Mr Campbell is going to put copies of the poster around the school and in every class and put it on the website and attached to a newsletter.

3) Encouraging healthy eating and exercise:

- We want to try to encourage children to eat healthily with their playtime snacks.
- This is important because it helps us to live healthily now and as we grow up. We want to focus on playtimes right now and the School Council can help to spread the message and someone said you can try to limit how much sugar you eat.
- We agreed that a poster around the school would be a good idea and we would like to turn it into a competition and the winning poster will be put up around the school.
- We will talk about it at our Class Council meetings and Mr Campbell said he would tell the other staff about it and help to organise the competition, so our parents know about it too.

4) Class meetings

- Children in Year 3 talked about having a 'ball trampoline' game at playtime and they would love to have a school pet.

The Firs Lower School
School Council 2025-2026

- Children in Year 2 would love to have more footballs and buffet style lunches. They would also like the chance to have some indoor play, not just when it is raining.
- Year 1 said they would love more toys at lunch time and better toilet roll dispensers because they are tricky to use. Children in Holly class said they would like a bigger quiet bay as there is not enough room for everyone to sit comfortably... Mr Campbell said this could be quite tricky!!
